### Evaluation of Student Achievement:

*Lab-based Assignments (100 points):* Students will periodically be given lab-based assignments, for example language sample analysis activities, to promote clinical decision-making skills about child language assessment and intervention planning. Additional information will be provided via Blackboard. **Due dates will vary.**

*Mid-term Examination (100 points) and Final Examination (100 points)*

Students will complete two examinations for this course, worth 100 points each and thus totaling 200 points. These examinations will be available to students for a limited period of time on Blackboard. Additional information will be provided in class and via Blackboard.

*Research Synthesis Project and Presentation (100 points):* Students will select a clinically-relevant topic and review, at minimum, three peer-reviewed journal articles related to an area of child language assessment/intervention approved by the instructor. Students will prepare handout and a succinct presentation (PowerPoint, Prezi, etc.) that effectively integrates the main findings and clinical applications of the articles. Additional requirements and documents will be provided via Blackboard.

**Due: 4/2018** – based on topic, preference, and availability, students will sign up for a specific week in April to present.

**Grading Scale:**

Grades are based on the total percentage of points earned. This means that your grade equals earned points/total points. There are 400 total points possible. The grading scale is as follows:

A 93-100% (370-400)

B 85-93% (338-369)

C 77-84% (306-337)

D 69-76% (274-305)

F 68% and below (273 and below)

*\*\*The instructor reserves the right to make changes to the topic schedule or point value for assignments based on schedule and/or class needs.*

**Technology Management:**

This course will include use of Blackboard software. Managing student technology is the sole responsibility of the student. The student is responsible for making sure that: (a) student word processing software is compatible with that used by the University; (b) student email software is working properly and that students know how to use it (e.g., to send attachments to the professor); (c) Internet service providers' equipment and software are installed and working properly in conjunction with student computers; (d) in the event that a student's computer stops working properly or becomes totally inoperative, the student has another means by which he or she can successfully complete the course; and (e) any other student technology problem or issue gets successfully resolved; this in part implies that if a student cannot resolve any personal technology difficulties, his or her only workable solution may be to drop the course. Please familiarize yourself with the business hours of WKU's IT help desk as well as the website and alternative means of communication with the IT department.

The IT Help Desk can be reached at 270-745-7000 or online at
