**The following assignment descriptions are all for writing the Leader Analysis Final Paper. The proposal, outline, style analysis, five practices analysis are all elements of the larger Leader Analysis Final Paper. These short assignments will be turned in throughout the class, and you will be given rich feedback when they are graded. You can then choose to apply this feedback to improve the quality of your Leader Analysis Final Paper.

Leader Analysis Proposal

Students will propose a leader to write their Leader Analysis Final Paper about. This leader needs to be a **Public Person** (not a relative or friend). The leader is either historic or currently living. Students must have their chosen leader approved by their instructor before the final paper can be written. Students will post their proposals in the *Leader Analysis Proposal* Discussion Board in lesson 7.

The proposal should include:

- 1. The Leader's name.
- 2. A short description of an example from your leader's life that supports each of the five practices of exemplary leaders.
- 3. A potential source you may use to research your chosen leader.

Before you post on the discussion board, make sure you learn what leaders your classmates have already chosen, as **you cannot pick a leader that has already been chosen by someone else.** If you cannot decide on a person, let me know and I will be happy to help you choose. (**Due in lesson 7, worth 20 points**)

Style Analysis. Students will write a Short Style Analysis in lesson 10. The Style Analysis will be a 1-2 page **analysis** over your chosen leader's leadership style. Leadership style is addressed in lesson 4. Give multiple examples from your chosen leader's life as evidence to show how your chosen leader consistently used a particular leadership style. Use proper APA format for this paper, along with a title page and reference sheet. (**Due in lesson 10, worth 20 points**)

Five Practices Analysis. Students will write a Short 5 Practices Analysis in Lesson 11. The 5 Practices **Analysis** will be a 2-3 page analysis over how your chosen leader has exhibited (or hasn't) the 5 practices of exemplary leaders addressed in chapter 7. Use examples from the leader's life as evidence to show how they did or did not exhibit each of the 5 practices of exemplary leaders. Use each practice as a header to organize your paper. Use proper APA format for this paper, along with a title page and reference sheet. (**Due in Lesson 11, worth 20 points**)

Leader Analysis Outline. Students will outline their Leader Analysis Final Paper in lesson 12. The outline will be in APA format with a proper title page and reference page. The content of the outline will be a header and main idea chart to organize your thoughts for the final paper. For each of your main points, include a topic sentence and a transition sentence into the next part of your paper. At the very minimum, your topics should include: Introduction, the 5 practices of exemplary leaders, Leadership style, and conclusion. This should be between 1 and 2 pages in length. An example is provided under the Adm. Tab, APA section. (Due in lesson 12, worth 20 points)

The Writing Center. Writers need feedback from readers to help refine their writing. The Writing Center can give you this feedback. Tutors will talk with you about your writing to help you: brainstorm ideas, clarify main points, strengthen logic and support, smooth out organization, integrate sources and credit them properly, fine-tune sentence style, and learn to proofread. The WLC helps you to become a better writer; they <u>won't</u> edit or proofread your paper for you. WLC helps you learn to revise and edit so you will be better able to catch your own errors and improve your own content, organization, and style.

Schedule an Appointment:

- Visit <u>Appointment Scheduler</u> Please take note of the location at which your appointment is scheduled.
- Email to find out about scheduling an Adobe Connect Conference for a conversation with a tutor in real-time at writingcenter@wku.edu
 - Submit your paper here if you need help from our online resource.*
 - After you submit your paper, WLC tries to respond on the next business day via email with an estimated return time for your feedback (generally returned within 72 hours--not counting weekends). Please submit your request as soon as you know you need help. If you wait until your deadline is looming, there may be others who submitted before you (first come, first served), plus you'll need time to read and utilize our suggestions.
 - *We'll give you our feedback on your writing by email, but will not proofread your entire paper (see below for details).

Cheating and Plagiarism. To represent ideas or interpretations taken from another source as one's own is plagiarism. Plagiarism is a very serious offense and not tolerated. The academic work of students must be their own. Students must give the author(s) credit for any source material used. To copy content directly from a source without giving credit is a flagrant act. To present a borrowed passage after having changed a few words, even if the source is cited, is also plagiarism. Works submitted for any other class is also not acceptable. Assignments that have been plagiarized receive a grade of "F" and could result in a student failing the course. The instructor may check student work by using plagiarism software. Please refer to the "academic offenses" section of the WKU Student Handbook: http://www.wku.edu/judicialaffairs/2004-05Handbook/12_AcademicOffenses.pdf for more details.

Incompletes. A grader of "X" (incomplete) is given only when a relatively small amount of work is not completed because of illness or other reason satisfactory to the professor. A grade of "X" received by a student will automatically become an F unless removed within twelve weeks of the next full term (summer term excluded). Incompletes must be pre-approved by your instructor.

Privacy Matters. The Internet may change or challenge notions of what are private and what is not. The instructor prefers to provide disclosure up front so students know what the possibilities

are. Although the course is protected by a password, such tools are not perfect as human beings are using them. Students are relatively protected by the password but no one can guarantee privacy on-line. Part of the privacy for every student depends on the actions of each individual student.

- The course software used enables the instructor to know which students have logged in, where in the course site they have visited, and how long they have stayed. The technology support people have access to information posted at the site.
- Course Security: In the event students use a public terminal (say at a hotel or library) completely close the browser software when finished. This will prevent another person from accessing the course using your identification, doing mischief in your name, and violating the privacy of other students.
- Do not allow access to the course to those not registered in the course.
- Guard your password and change it from the one assigned at the start of the term. (Go to Student Tools).
- Students sometimes want to discuss their grade via e-mail. E-mail is NOT secure or private. If an individual student requests his/her grade, the instructor cannot legally send to that student his/her grade through e-mail without a legal signature from that student on a permission form. (An instructor may e-mail the typical group listing with obscured names.)
- Participants are expected to represent their course identities in a truthful manner. Falsifying your identity is grounds for disciplinary action of all parties involved.

Intellectual Property. It is a common misconception that material on the Internet is free. Even if a copyright notice is not present, work is the property of the creator. The instructor expects students to post only material that is the students by right of creation unless the student gives proper credit and indications. The plagiarism policy applies on the Internet too. Images, sounds and other multimedia are included in copyright law. (For example, professionally done photos as for high school yearbooks belong to the photographer. People only purchase copies.) It is common to receive E-mails with amusing articles or other materials. Be aware that it might be an illegal copy and exercise caution in forwarding it. It may also contain a virus.

On the plus side, ideas cannot be copyrighted. Students can share the most important part of a website as long as it is in the student's own words or interpretation.
