Assignments:

1. Reading assignments will introduce students to the concepts of citizenship and approaches to practicing citizenship on a local and global scale. Readings are assigned weekly and provide an opportunity for students to interact with the course material.
2. Case studies are assigned as Blackboard discussion forums where students demonstrate their critical thinking and problem-solving abilities. The forums provide you with a context to interact with each other and with me. Case studies are an opportunity to engage in an active learning process. Case studies are also an assessment tool that gauge your learning objectives. No late posting will be accepted (see below the grading rubric for weekly discussion for more details).
3. Quizzes are assigned weekly on blackboard. You will have to take 10 quizzes during the semester. They cover the reading assignment and gauge your understanding of the concepts and approaches presented by the reading material. Each quiz consists of 15 questions. You will have 20 minutes to take and finish a quiz. **Quizzes are to be taken in one sitting (there is no saving and coming back to the quiz). A 20 minute window will open every Thursday from 8:00 am through Sunday 11:59pm; that way you will have 4 days to find 20 quite minutes to take your quizzes. There is no excuse for missing a quiz and I will not take any late work or reopen the quiz for any reason.**
4. The final paper will present students with a capstone learning experience. Students will submit a research paper that examines the shifting boundaries in the contemporary world and evaluate the effectiveness of approaches used to take action as a global citizen. Students will particularly analyze and reflect on the extent to which we should rely on governments to solve environmental problems and governments' limitations. Students will recommend/ mitigate, through an environmental and social action plan, measures that reflect the awareness of the global citizen in his/her decisions.

Blackboard

This course will be delivered via Blackboard, your online learning community, where you will interact with your classmates and with me. Within the course site you have access to learning materials, tutorials, and the syllabus. You can discuss issues, submit assignments, take quizzes, and email other students and me. Assistance and help are also available on the use of Blackboard.

Online Discussions:

To maximize your learning, you are expected to participate actively in the discussion to the extent of contributing a response of at least 400 words of analysis to each Case Study and 150 words to respond to at least two other students' posts. You have to respond to at least 2 different students to earn the full grade. The responses should add substance, request clarification, or challenge the assertions made by providing real or hypothetical scenarios that the original posting did not cover. **Remember, the purpose of this methodology is to stimulate academic debate and not to verbally attack another student. Do not consistently wait until the last day to respond to questions as this limits your class interaction with other students and class interaction is a portion of your grade.**

Refer to the guidelines for analyzing case studies
