## Evaluation/Grading

The final grade for each student will be based on a percentage of total points obtained. Ninety percent (90%) of the course grade will be awarded from unit exams and a comprehensive final.

Ten percent (10%) of the course grade will be awarded from the student's score on the course's HESI standardized examination. Unit examinations will consist of various test question formats including but not limited to multiple-choice questions. The final exam will be comprehensive. Testing material may be taken from text reading assignments, handout materials, study guides, case studies, instructional audio/video recordings, and assigned readings from sources other than course text.

Unit Exam 1	40 points
Unit Exam 2	40 points
Unit Exam 3	40 points
Unit Exam 4	40 points
Unit Exam 5	40 points
<u>Final Exam</u>	<u>65 points</u>
<b>Total Exam Points</b>	<b>265 points</b>

**HESI Exam\*\* 100 points**

Use the following formula to calculate student overall course grade:

$$\left[ \frac{\text{Total \# Unit \& Comprehensive Exam points}}{265} \times 0.90 \right] + \left[ \text{HESI Exam \% Score} \times 0.10 \right] = \text{Course Grade}$$

**\*\* Please Note - As the HESI Exam is designed to operate on a PC and not a MAC computer, students MUST take the HESI Exam on a PC and NOT on a MAC computer.**

**Tests for this course shall be taken at the WKU South Campus Testing Center, an approved off-campus testing center, or via Proctor-U. It is the student's responsibility to schedule each test using the directions sent to students via email by the DELO Testing Center. Students must complete exams between the hours of 6:00 AM and 8:00 PM CST on the assigned day.**

**In order to add activity credits, the student MUST have a Course Grade of at least 77.0%.**

An opportunity to improve course grade will be available by completing additional assigned activities each week. Activities are assigned from either the Davis Edge: NCLEX (DE) or Davis Advantage (DA) electronic resources or the Institute for Healthcare Improvement (IHI) website. Each activity is worth an assigned number of credits. Students must earn at least **112 of the possible 160** credits to pass the course. **Students who earn less than 112 credits will not pass the course and will receive a grade of "D", regardless of student performance on exam grades.** Student performance on assigned activities can improve the exam portion of the overall course grade. Additional points will be added as follows:

112 – 133 credits will add **TWO** points to total examination points  
 134 – 143 credits will add **FOUR** points to total examination points  
 144 – 160 credits will add **SIX** points to total examination points

The PrepU activities require a student success score of “4” to receive the 10 points assigned for each quiz. Students may repeat the PrepU activity quizzes as many times as needed to obtain the

required student success score of 4. Faculty have access to PrepU so students do not have to submit any documentation to receive credit for the assignment. To document completion of the IHI activities, students must successfully pass the IHI quiz attached to the assignment and print the IHI certificate. Students are to submit certificates on Blackboard through assignments.

The grading scale for total points earned is as follows:

A  $\geq$  91.0%    B  $\geq$  84.0%    C  $\geq$  77.0%    D  $\geq$  69.0%    F < 69.0%

In order to successfully complete the course a 77.0% minimum will be required. A student with an average of 76.9% or below will not be successful. Students must also achieve a satisfactory clinical evaluation in NUR 209. If a student is unsuccessful in either NUR 208 or NUR 209, both courses must be successfully repeated before the student is allowed to progress in the program.

A student may not take an examination other than the scheduled date without satisfactory justification. The faculty members responsible for the course will jointly decide if the justification is satisfactory. **The student who does not notify the faculty of an absence for an examination and/or who cannot provide satisfactory justification for the absence can still take a makeup examination but the achieved score will be reduced by 10% of total points possible.** At the discretion of the course instructors, any makeup exam may consist of different test items or essay questions. Students are responsible for notifying their instructor if they are unable to take a scheduled exam prior to the scheduled test time. Makeup exams will be given as soon as possible, preferably within one week of the date of the original exam.

### Test Review

Test feedback forms will be returned within one week after an exam. Individual student appointments can be made for further test review with faculty and must be completed prior to the next test in that course. **No written notes may be made during test review.** Final exams cannot be reviewed and students will not receive a feedback form for the final exam. Appointments for test review with faculty members can be made using email.

Any appeals for an alternate response to be counted as correct must be negotiated with the course faculty. Students have one week following the grade to challenge the test or assignment grade. Challenges must be made in writing and based on material the student can reference in their textbook. This process must take place within the designated time frame, not after final course grades have been posted. In addition, the student must question specific test, paper, or assignment items, and not just ask for points to be added to their grade due to their individual needs and life circumstances.

**Students wishing to appeal a test or assignment or other grade in this course must follow the following process.**

Course Grade appeals must follow the university academic complaint process outlined in the WKU Student Handbook at <https://www.wku.edu/handbook/academic-complaint.php>. Grade appeals (students seeking a change in grade) **must be based on an error in grading** (the student

did not get the same points for the same response as everyone else in the class). If there is no error in grading and there is no math error in calculating the student's grade, then there is no basis for a grade appeal. Grades will not be changed just because a student is short of points to pass the course. Additional points for test or other assignments will not be considered after the student has failed the course, unless the test falls within the one week challenge period. Any test item challenges must be conducted in the week following the exam, and must be resolved with the faculty member at that time, based on information from the course materials such as the textbook. The faculty member is considered the expert and the faculty members' option of the correct answer will be the final answer.
