**COURSE DESCRIPTION/OBJECTIVES**

This course is an introduction to the American public law system and the use of law to achieve economic and social goals. It considers the elements of our legal system from the perspective of business manager. The course reviews constitutional and structural underpinnings of our legal system and examines the nature of legal concepts that include ethics, contracts, torts, property, criminal, and business structures. Consideration may be also given to the Uniform Commercial Code, social forces, governmental regulations, administrative agencies, consumer protection and environmental law.

The course learning outcomes are the following:

1. You will learn foundational legal principles and concepts that affect business transactions and are applicable in the business world today.
2. You will develop the skill to identify the key (root) issues in disputes and succinctly focus the correct issue statement.
3. You will become proficient at utilizing critical thinking skills by analyzing, answering and discussing issues raised in legal cases.
4. You will learn how to effectively apply legal principles to realistic fact situations by working through case scenarios and participating in online and class assignments.

### **CLASS INFORMATION**

A copy of this syllabus and the course outline are posted on Blackboard. Additional readings, videos, and handouts for selected chapters are posted in the Course Content folder.

In general, late submissions for assignments or exams will not be accepted. With an online class, there are bound to be issues with technology (e.g., your computer, Blackboard, or Connect is not working). However, you are given ample notice of assignments, quizzes, and exams, and I have too many students to individually investigate each situation and pass judgment as to whether I feel an excuse is valid or acceptable. For these reasons and to be fair and consistent to everyone, all students must adhere to the same policies, and **no** exceptions will be made.

I reserve the right to amend the syllabus and the course outline as necessary throughout the semester and will make any updated version available on Blackboard. These documents shall not be construed as a contract between you and me.

### **READING ASSIGNMENTS**

While this is an online course, the course material is **not** available on demand. Like a face-to-face class, you will read one or two chapters each week, as listed in course outline. You are expected to read each assigned chapter and any additional material I have posted on Blackboard. There are posted lectures for each chapter. Be sure to check Blackboard on a regular basis for class announcements and any changes to the course outline.

### **ASSIGNMENTS**

For each chapter, you will be assigned a SmartBook assignment and a homework assignment through McGraw-Hill Connect, which count towards your final grade in the course. These assignments are intended to increase your comprehension of the material. These assignments will be due at 11:59 PM CT on Sunday of the assigned week.

There will also be numerous application-based activities in McGraw-Hill Connect throughout the semester. These interactive activities require you to use problem-solving skills and apply your knowledge to realistic scenarios.

### QUIZZES

There will be six quizzes, and each quiz will cover two modules. The due dates of the quizzes and the content covered are listed on the course outline.

### EXAMS

You will also take three exams, including the final exam. The exams will consist of a combination of multiple choice and true/false questions. All exams will be closed-book, closed-note exams. It is your responsibility to register with the DELO Testing Centers (dltesting@wku.edu or 270-745-5122) prior to taking each exam. To register for an exam, follow the instructions in the email message you received from the DELO Testing Centers at the beginning of the semester. To avoid scheduling difficulties, I strongly encourage you to register early. For this semester, the exams must be taken on one of the following dates:

Exam 1:	Sept. 23-25, 2021
Exam 2:	Oct. 28-30, 2021
Final Exam:	Dec. 7-9, 2021

If you will miss an exam, you **must** contact me in advance, if possible. At my discretion, you may make up the missed exam. While the final exam is not cumulative and will not test any material previously covered, you are still expected to retain the material covered earlier in the course.

### ACADEMIC MISCONDUCT

At Western Kentucky University, academic integrity is extremely important. In this course, plagiarism or any other form of cheating (which includes giving a false reason for requesting to make up missed course work) will not be tolerated. No student shall receive or give assistance not authorized by me in taking an exam, or assignment that is submitted for purposes of grade determination. Any student who commits an act of academic dishonesty may receive a failing grade in that portion of the course work in which the act is detected or a failing grade in this course without possibility of withdrawal. The Student Code of Conduct can be found at <http://www.wku.edu/judicialaffairs/student-code-of-conduct.php>.
