Modes of Instruction

Instruction mode will be online for this class; synchronous class meetings will use Zoom on the indicated days on the *course schedule*. Some course content will be delivered asynchronously using Blackboard as needed. Asynchronous course content will include, but not be limited to: pre-recorded lectures, small/cooperative learning group assignments, internet exploration, independent learning activities and assigned readings. Course Expectations

Students enrolled in this course are expected to be active learners and participants.

Evidence of active learning includes:

- For online instruction, participation includes “face-to-face” (video on), virtual communication with peers and the instructor and adherence to videoconferencing etiquette during that designated class meeting time, unless excused by the instructor for qualifying circumstances.
- Regular retrieval of course information from course Blackboard site.
- Responding to instructor’s email and/or announcements when applicable.
- Engagement in and completion of all assignments as scheduled (includes exams and learning checks).
- Completing readings, activities, and other media content that are provided on the Blackboard course site.
- Posting comments, questions and/or engaging in discussion for Blackboard Discussions assignments regarding course content.

Course Policies

Attendance and Participation

All students are expected to attend all scheduled class meetings as indicated. Students are responsible for learning material that is covered in class or obtaining notes/information from peers following any absence. Students are to follow rules and guidelines for excused absences set forth by the department and the university. Students must contact the instructor as soon as possible if they anticipate being absent for any reason, being late for any reason, or leaving class early for any reason. Attendance is taken each class meeting for attendance points; this includes being in class on time and being present for the entire duration of class. Points are awarded each week for participation. In the event of an asynchronous class meeting, students can still earn participation points through completion of exit slips if the instructor deems necessary.

Communication

Your WKU email address is the ONLY one to which class correspondence will be sent. You are responsible for checking your email and the Blackboard course site regularly.

Course Modification Clause

The instructor reserves the right to modify the syllabus, course schedule and assignments as needed. This is so that course requirements can be fulfilled, student and instructor needs can be met, and student learning potential can be enhanced. Any changes will be communicated to the students via an announcement through Blackboard or during class times as soon as possible.

Dropping the Course

Please see university guidelines for dropping a course.

Audio/Video Recording

Any student recording any portion of class, either audio or video, is prohibited without instructor permission prior to lecture. There should be no reason for a student to routinely record class lectures. In the event class is virtual via Zoom, recording live class meetings may be recorded at the discretion of the instructor, but never by a student.

Assignment Format and Quality

Assignments submitted should be submitted using proper format and quality. All assignments must follow APA format when required.

Format. All papers must use Microsoft Word or a PDF, unless indicated otherwise. Do not submit a Pages document (this format is not viewable). All assignments should be typed using a 12 point, Times New Roman font, with one-inch margins. All graded assignments that are uploaded as a file into Blackboard, must include your name, course number, term, and title of the assignment (all lowercase letters, no spaces, no symbols). Students should save files as indicated in each project description. Example of file name:
ahatcherSLP513fall2021listeningessay.

Uploading Expectations. Assignments must be uploaded by the due date indicated on Blackboard through the appropriate submission tab. Do not email assignments if you have difficulty uploading to Blackboard. The instructor must have a permanent record of all assignments. Contact WKU IT first if you have difficulty uploading a document- your contact with IT is documented. You may be asked by the instructor if you contacted WKU IT upon asking for assistance from the instructor.

APA style. Please follow APA guidelines for written papers, if applicable to the assignment. Do not include title pages with written assignments/papers (although this is APA for manuscripts, it is not required for this course). The main concern for this course is using APA format for reference citations either within paragraph or at the end of a paper for a reference page. See the above resources and websites that provide helpful information concerning APA style and citations.

Quality. Assignments submitted should be completed in full and contain proper mechanics in writing (e.g., spelling, grammar, sentence structure, and punctuation). Inadequate demonstration of these mechanics will result in point deduction.

Due Dates of Assignments and Late Work

Assignments of any kind must be completed on the date listed within the syllabus and/or the due date posted on Blackboard, unless otherwise notified by the instructor (such as an unexpected extension). If due dates do not match for some reason, it may be a mistake so please reach out to the instructor if due dates are unclear. Students receive a course schedule well in advance with assignment due dates; this is typically the master schedule. All assignments will be due by 11:59 PM Central Standard Time on the due date indicated on the “course schedule.”

Late assignments will not be accepted after three calendar days unless arrangements were made before the assignment was due. Late work will have score deductions (10% per day). Any extenuating circumstances should be discussed with the professor, most preferably, ahead of time. Student emergencies or extenuating circumstances will be addressed on an individual basis and must be communicated as soon as possible.

Grading Scale

Grades are based on the total percentage of points earned. This means that your grade equals earned points/total points. The grading scale is as follows:

A 93-100%
B 85-92%
C 77-84%
D 69-76%
F 68% and below

Evaluation of Student Achievement

Evaluation of student achievement is in the form of the following course requirements. Details of assignments and how students will be graded will be included in greater detail on the “course schedule.” There are 370 possible points for this course. Points for this course will be awarded for:

- **Attendance and Participation** (50 points total): Students are expected to attend and participate in class each week, as well as access other resources posted on Blackboard. **In the event of online classes, students will be held to specific videoconferencing etiquette (video on and audio on when speaking, well-lit environment, etc.) during synchronous class times; this will be reviewed at the initial class meeting.*
- **Learning Checks** (100 points total): Students will complete four learning checks (quizzes) over the course of the term at 25 points each. Periodic learning checks help to avoid larger, more comprehensive exams.
- **Discussion Board Assignments** (30 points total): Students will complete three thoughtful, fun, and/or functional writing assignments related to various course topics over the course of the semester using the Discussion board feature on Blackboard.
- **LAB Activities** (140 points): Students will complete 4 hands-on, practical activities that focus on clinically related care of persons with cognitive-communication disorders. Each LAB activities vary in point value, ranging from 20 to 50 points. More details will be provided on the “course schedule” (see addendum) and on Blackboard.
- **MoCA Training: Online Student Training** (50 points): Students will complete an online training and student certification for the Montreal Cognitive Assessment (MoCA). Additional information will be provided on Blackboard (Bb).

ASSIGNMENTS AND A WEEKLY CLASS SCHEDULE WILL BE AVAILABLE THE FIRST WEEK AS AN ADDENDUM TO THE SYLLABUS.

Technology Management

This course will use Blackboard regularly. Blackboard works best with Firefox or Google Chrome. This course will also occasionally use Zoom software.

Management of student technology. Managing student technology is the sole responsibility of the student. The student is responsible for making sure that: (a) student word processing software is compatible with that used by the University; (b) student email software is working properly and that students know how to use it (e.g., to send attachments to peers or the professor); (c) Internet service providers’ equipment and software are installed and working properly in conjunction with student computers; (d) in the event that a student’s computer stops working properly or becomes totally inoperative, the student must secure another means by which he or she can successfully complete the course; and (e) any other student technology problem or issue must be successfully resolved; this in part implies that if a student cannot resolve any personal technology difficulties, his or her only workable solution may be to drop the course.

IT Help Desk. Please familiarize yourself with the business hours of WKU's IT help desk as well as the website and alternative means of communication with the IT department. The IT Help Desk can be reached at 270-745-7000.

Zoom. Zoom is a video communications tool, with an easy, reliable cloud platform for video conferencing, collaboration, chat, and webinars across mobile devices, desktops, telephones, and room systems. This course will use Zoom for all live videoconferencing (AKA synchronous) classes. Students may also be asked to utilize Zoom to record videos to send to the instructor for assignments. For safety and security, a Zoom link for classes should be accessed by the student in the Blackboard **Course Site** —> **Tools** —> **Zoom Meeting**, then click the “Join” box at the appointed day and time for class. Please visit this website to familiarize yourself with Zoom, since we will be utilizing this platform this semester: <https://www.wku.edu/its/zoom/>

The Learning Center Peer Tutoring Services

The Learning Center (TLC) provides free tutoring services that empower students to achieve academic success. Trained peer tutors are available to review course content, answer questions, and demonstrate effective study strategies. TLC offers individual appointments and group sessions (PASS) for many courses. For more information or to make an appointment, visit www.wku.edu/tlc.

To present a borrowed passage after having changed a few words, even if the source is cited, is also plagiarism.”

Disposition of Offenses. Students who commit any act of academic dishonesty may receive from the instructor a failing grade in that portion of the course work in which the act is detected or a failing grade in the course without possibility of withdrawal. The faculty member may also present the case to the University Disciplinary Committee through the Office of the Vice President for Student Affairs for disciplinary sanctions.
